

OLEKSANDR LEVADNYI

Full-stack React and React Native Developer

Chudnivska Street, Zhytomyr, Ukraine | +380998653347 | bylava995@gmail.com

CAREER SUMMARY:

Full-stack React and React Native developer with 7+ years of experience creating high-performance web and mobile applications. Expert in building responsive user interfaces, integrating APIs, and implementing state management solutions. Passionate about delivering clean, maintainable code and improving user experience across platforms.

WORK EXPERIENCE:

TechWave Solutions, Kyiv

Senior React & React Native Developer | 04 May, 2022 – 08 September, 2024

- Built and maintained web and mobile apps for e-commerce and fintech sectors.
- Developed reusable UI components and libraries across React and React Native projects.
- Optimized web app performance using code-splitting, lazy loading, and memoization.
- Integrated REST/GraphQL APIs and third-party services like Stripe and Firebase.
- Collaborated closely with designers and product managers to implement responsive UIs.

InnovApp, Lviv

React & React Native Developer | 05 September, 2020 – 20 June, 2022

- Created mobile and web applications for social networking and healthcare startups.
- Implemented Redux and MobX for state management across projects.
- Ensured cross-platform compatibility and optimized mobile performance.
- Wrote unit and integration tests to improve code quality and reduce bugs.

RELEVANT PROJECTS:

FastShop App

- A shopping mobile application made with react native for AndroidBuilt reusable components and state management using Redux for efficient app performance.
- Integrated Firebase for real-time database and user authentication.
- Implemented Stripe payment gateway and push notifications.
- Achieved 4.7+ rating on internal beta testing with 500+ users.

FState of Health Tracking App

- Designed a user-friendly dashboard to track daily/weekly fitness progress.
- Integrated GraphQL API for fetching and updating workout data efficiently.
- Implemented social features allowing users to share achievements.
- Reduced app crash rate by 30% through performance optimization.
